

NRC REPORT From BR Divisional Representative

The divisional representative (or regional rep) is responsible for the facilitation of grant applications and allocation. There have been very few applications in the past year, although some clubs have asked for money to help put members through safety or first aid courses.

The NRC supported clubs and some colleges in the region with covid safety materials, e.g. large spray bottles and the spray for boats and funding to help colleges get back on the water, these was still being used earlier this year.

Kate O'Sullivan from Tees (Deputy Chair of British Rowing) has put a lot of effort into helping div reps understand the governance and procedures in British Rowing with several zoom meetings with the British Rowing board.
