

Coach Education Report – Northern

Since the last AGM it was reported that all regions would take on the planning, organisation and delivery of courses within their own region with some administrative support from the BR Bedford office via Elaine Murphy. It has not been an easy process but as you can see we are up and running and delivering most of what is required or has been requested. If you look at table 3, you can see that what we have been doing compared to other regions, some of which are a lot bigger than are own.

On a National Level, a lot of focus has been on the development of the new club portal and in particular the new coaching membership and what the new coaching membership should offer and deliver. Coaches can now login to the new hub and I suggest that those who have not do so.

Level 2 Assessments

Level 2 Assessments are being continually completed and we have no real concerns of non-completion at the moment.

Course	Completed	Not Yet Complete	% Complete
Tyne Level 2 (2017)	9	1	90
Tees Level 2 (2017)	7	5	58
Tyne Level 2 (2018)	5	4	55
DARC Level 2 (2018)	7	3	70

Level 2 Strength and Conditioning

It has been an ongoing battle to get a Level 2 S+C course run in the region through no fault of our own. We have had to find a new S+C Tutor in the region, which I can say has happened and that person is in the process of completing the relevant checks. We have been confirmed by BR that we are able to host a course which will be at Newcastle University in the new year. British Rowing are in the process of developing a new S+C course but this is a long way off being viable.

Level 2 Session Coach

After this year planned session coach had to be cancelled due to lack of interest. We are hoping to run two courses this year. One specifically aimed at the colleges and the other at the wider rowing community, with both courses open to all. More information will follow early in the new year.
