

## Coach Education Report

All in all a rough year for Coach Education across the country but things are beginning to get back to normal with the NCC working on several projects to be announced soon.

### Coach Education Team

There have been no changes to the coach education team this year.

### Courses

Since the last AGM very few face to face courses have taken place. Currently the only course scheduled to take place is a level 2 club coach course at DARC in January. We are hoping to schedule more later next year.

### Assessments

The Level 2 assessments are now taking place face to face. If anyone is still requiring to be assessed please let me know.

### Women's Development Program

The women's development program kicked off last month after being postponed. It invites coaches and athletes J15-U23 to join. The program will look at power and skill development. More information on the British Rowing website. We have 12 athletes and 7 coaches signed up this year in the region.

### GB Rowing Diploma in Sporting Excellence

Three athletes graduated the two year Diploma in September and have moved onto University programs, B Norman (DSBC) Roman Bowery (DSBC) C Warren (CLS) M Cleugh (CLS). On top of the 7 athletes on the Diploma currently a further two athletes from the region have joined from DARC and TARC.

### Safeguarding and First Aid Qualifications

Please remember that you must have an up-to-date safeguarding qualification and first aid certificate for your coaching qualification to be valid.
