

NRC Executive update June 2020

Recreational and Explore Rowing report

The Recreational Rowing Committee is looking at options for single sculling boats that would be suitable for recreational use, as singles look to be the only realistic option for the time being.

DARC has acquired some stable singles, usable with or without floats, that are being made available to members who aren't experienced scullers or who normally only row in a crew boat.

The Sunday League has been cancelled for 2020 and we have started planning for next year by asking clubs for preferences regarding dates for the 2021 league. Tees have indicated that they will again be unable to host a round, but Hexham, Ebchester and Talkin Tarn have offered to stage a round and all have expressed sadness at missing the opportunity to take part this year.

There is some desire to stage an event whenever the current situation improves as many members feel they are missing out.

Colin Lawson

Recreational Rowing Co-ordinator
